Q&A Corner

■ *Will Astra show his face in the very end?*

Who knows. He doesn't really want to show it since he has a mask fetish, though...

■ *Astra's arm hair is shocking*

Please reread the past chapters since I drew about it before. They're all over his arms since he has a hair fetish.

■ *Apart from the readers, Astra's face is visible to the characters, right?*

No it's not! He keeps it hidden!

■ *Will a romance bud between Noah and Astra?*

It'd be nice if I could draw a relationship that goes beyond that, hm?

■ *Is the leader name Slash derived from Slash of Guns N' Roses?*

It was derived from a musical genre! However, I'm now a little bit aware that they overlap. On that note, I'm now a bit aware that Rose overlaps Red Rose too.

■ *The door drawing was shown on Pixiv first, wasn't it?*

Well I wouldn't say shown first, but more like I sketched it and was pleased with it, so I reused it.

■ *A Halloween pumpkin, huh?*

It's important to be able to understand what it is.

■ *The Kids' music video is cool, isn't it?*

Yeah! And since it's been so long I made a spin-off of it. →
The background's a house too.

This time I randomly noticed the "in the very end" comment, but since I haven't received any response to my answer yet, I guess the end's not going to be spoiled any time soon, lol
